PROFESSIONAL SUMMARY

Highly accomplished **Technical Project Coordinator / Project Manager with 4+ years of experience** driving end-to-end delivery of complex software, AI, data, banking, gaming, healthcare, and IoT enterprise platforms. Expert in translating business requirements into technically executable plans, coordinating engineering teams across frontend, backend, AI/ML, cloud, and QA functions. Strong ownership of Agile delivery, sprint execution, release management, and stakeholder governance.

CORE SKILLS & TECHNOLOGIES

Project Management: Agile Scrum, SAFe (Foundational), Waterfall, Full-Cycle SDLC, Sprint & Release Planning, Milestone & Roadmap Management, RAID Logs, Production Release Management, Stakeholder Coordination.
Technical & Architecture: Python (Django, DRF), REST APIs, SQL (PostgreSQL, MySQL), React.js, Node.js, Microservices Architecture review, AWS (EC2, S3), CI/CD Pipelines (GitHub Actions/Jenkins).
AI / Advanced Analytics: Machine Learning concepts, Time-Series Forecasting (RNN Models), Data Pipelines, Feature Engineering, Model Validation Metrics.
Tools: JIRA, Confluence, Trello, GitHub, Postman, Power BI, Figma (UI/UX Review).

PROFESSIONAL EXPERIENCE

IT Project Coordinator – Gaming, Banking & AI Projects | HandledTech Labs *(Feb 2025 – Present)*

- **AI-Based Stock Prediction System:** Coordinated end-to-end lifecycle across AI/ML engineers, Django backend (Python, DRF, PostgreSQL), React frontend, and QA. Monitored RNN-based prediction models, validated backend contracts, and ensured market data pipeline integrity.
- **Banking & Financial Services Application:** Managed KYC workflows (verification, approvals), merchant management, RBAC access control, UAT sign-offs, and production readiness under strict compliance.
- **Casino Gaming & Sportsbook Platform:** Owned sprint execution from requirements to production deployment. Led daily Scrums, burn-down tracking in JIRA, and post-release incident triage.

PMO Analyst | KatalTech *(Apr 2022 – Jan 2025)*

- **Air Quality Monitoring Control System (IoT):** Managed full lifecycle across Flutter, Embedded C, and MQTT teams; tracked milestones and oversaw real-time dashboard deployments.
- **Healthcare Web & Mobile Application:** Gathered clinical requirements, led walkthrough workshops, and coordinated QA testing and UAT adoption.
- **PMO HRMS Enterprise Portal:** Led governance, sprint roadmaps, and stakeholder alignment across HR, Finance, and IT for employee lifecycle management.

EDUCATION & CERTIFICATIONS

- **Bachelor of Engineering (BE)** – Velammal College of Engineering and Technology
- **Certifications:** Project Management (Udemy) | Django Framework (Udemy) | Software Testing (Greens Technology)
